Hi Alex,

As follow up to my last email, I wanted to make sure you had information that we had requested from Hannah asking who her points of contact were in regard to populating the non-Superfund places of interest. You will find that list below and attached. It has info on the process and contacts she used in the past. Given OW does not want to do the new call, and given our time crunch, what I recommend is sending something similar to what I've drafted below (including the three attachments – the data FAQ, the data model, and the initial data load of Hannah's list that ERG

provided - perhaps the 2<sup>nd</sup> and 3<sup>rd</sup> item may be in the same excel file – can't remember but I'm copying Andrew also). Also – I wanted to recommend that we remove Hannah's name from the FAQ as the DW point of contact, and replace it with the generic PFAS email box.

Mike

Hi Mike,

Please find attached the original charter for asking the PFAS Network Members to track PFAS Activity. Note at the time of the original next the Network consisted of regional members only. Hope this is helpful. Also attached are my comments on the PFAS Places of Interest Inventory, note these are just staff level comments. I think the document looks good and I tried to add more clarity around Network activities. Also please see the list below for my regional contacts. Note some regions have a couple of folks they want included on the network, but it would probably be fine to just contact the first/second people on the list.
